## Eagle-Research poised to Claim Worldwide Electrolyzer Market

• Brown's Gas is an industry-transforming technology with an **annual revenue potential of \$300,000,000.00 . . .** just in cutting applications. There are dozens of diverse uses for this extraordinary gas. In **neutralization of nuclear waste**, for example, **income power is in the billions!**

• Since 1994 Eagle-Research has been immersed in Brown's Gas research, experimentation and development. We've written the books, dispelled the myths and repeatedly raised the standards. **Eagle-Research Brown's Gas technology is safe, practical, definitive.**

• In March 2001, **Eagle-Research**, in a bold grassroots initiative, **launched The WaterTorch Collective.** The driving aim of this **group of enterprising distributors** is the dynamic **commercialization of Brown's Gas and their personal stake in the huge profit potential.**

Is this gettin' real good? Oh ya! And now, we've accomplished "the impossible!"

### LEADER of the PACK

**April 13 & 14, 2002  
Hampton Inn • Spokane, WA  
Sat + Sun 8am - 4pm**
