HUGE INCOME POTENTIAL

Brown's Gas is an industry-transforming technology with an **annual revenue potential of \$300,000,000.00 . . .** just in cutting applications . . . just in North America! There are dozens of diverse uses and income opportunities for this extraordinary gas. In **neutralization of nuclear waste**, for example, **income power is in the billions!**

Since 1994 Eagle-Research has been immersed in Brown's Gas research, experimentation and development. We've written the books, dispelled the myths and repeatedly raised the standards.

In March 2001 Eagle-Research licensed their Brown's Gas Technology to the Water Torch Collective, Ltd. (WTC). The driving aim of this **group of enterprising**
